A REVOLUTION IN FARMING.

Corn Planted by Machinery.

SURSTITUTE for the slow and tedious process of

I planting earn has long been a resileratum; but un-now the labored efforts of inventive senius has failed

alta production, though years and much money have

been spent to accomplish so great a piece of mechanism.

Some estimate of the importance of an invention that will materially facilitate the production of this great stands

may be formed from the lact that in 1876 near 800 000,000 builbels were raised in the United States, exceeding in

value all other grains, with the entire cotton crop in ad-

The present universal method of planting this great crop

is (after the ground is ploughed) by marking out the surface 5% or 4 feet apart each way, and in the angles thus

ormed a man drops 4 or 5 kernels and covers with a line I an expense of \$1 to \$1 95 per acre; but follow of part

and sometimes the whole crap results from the difficulty of obtaining sufficient force at the proper time in the spring to secure the minuting at the most critical period

Protetical men understand this erecombers, Numerous

rvices and machines have been made, but failure has

mly re-nited. A plan perfect in one respect was certain

o fail in another, so a to renter the whole worthless. No machine until now has been made to meet the uni-

versal domand of the farming introds in HILL, chick or angular planting, so as to enable him to cultivate with

ough and horac-hoe the crop-both ways between the

Dril planting i abandaned because of the impossibility.

foulth ation in but one direction.
The long wished for machine has been invented and per-

fected by a young Seetchman, and is the result of three years unwearled efforts, parient investigation and the ap-

ication of scientific and mechanical principles to accom-

hish a desired object.

The device is entirely new, simple and beautiful, work-

ng auto isally and yet so incentorsly and maturally as import to appear the result of instinct.

What Whitney's great invention dut for cotton this great-

er invention will do for coon, namely augment the quantity and sim nish cost.

No description could convey a c'ear idea of its peculi er

and displains thanks.

Without any Cook, Pann, Politic, Chanks, France,
France, Lavers, or Graning of any kind, with a horse,

guided by a man or boy, this machine executes in a neat

and perfect manner the following described work, being what is wan ed by every farmer.

1st. For own on the ground any required death, and Drops the corn (as many kernels as de fred) to a

space of 4 loches clauseter machematically in the HILL, equi-di tant, in one-tenth of a second.

But Covers the HILLS and presses the earth as you do

HILLS at the usual distances, as now done by hand And all, this at a cost of 15 cents an acre by single ma-

thine, and 10 cents per acre by a double on: -10 acres be

out antiquated gentlemen that ever- word is literal an

being demonstrated by actual one on an extensive reals, Here is a magnificent Monopoly of a great stapic Ma-

tipe, of immense intrinsic value. It must reach the large

peblest in the increased production of grain, and conce

quently sheap bread.

In the distribution of this splendid prize, (such it really

) there is a rare chance for a safe investment, lucrative

yand all ordinary calculations; in abort, the truth in this

onnection seems almost labulous.
Sole proprietors, we are willing to divide upon an equit-

able busis, and offer the monopoly of this magnificent spec-niation for States and Territories upon the following terms

Al New England and Southern States for cents per farm.

Higher territory, six cents per farm-except Illinois,

which will be ten cents per f.rm; Minnesota, \$1,000, Kan-ans and Nebrassa, \$808 California, \$500.

New York State will be said to counties to a sit parties who wish to invest in I mited sums. The consus of the United States of 1850 will be the half-of setimate.

at a fair figure. We levide the public to examine this subject, and we will exhibit the nucleus with pleasure, but es-

specially to those why take an interest in the material pro-

gres of this inventive age, as well as to those who cannot fast to fin t this an available medium of replenishing their

exhau-ted pockets, or augmenting their already ample re-

Facts About Ambrotypes.

A MERCEYPES were "Introduced" in Nashville
by
A LARCOMBE.

Ambrotypes are made nowhere else in Nashville than at e Ambrotype Rooms, No. 40 College St. Ambrotypes are made upon a double plate glass, hermeti cally sealed, and thus protected against all possibility of inambrotype Counterfeits are made on single glass, not

cealed, and are not so durante as an ordinary daguerrectype.
Ambrotypes were so named by the Inventor to distinguish
them from all other pictures. Other men borrow the name,
and apply it to an inferior picture which lacks the main coints of an Ambreivpe tone and durability GAS FOR COUNTRY HOUSES Steamboats.

PATENT BENZOLE GAS. COUNTRY Rights and State Rights for sale. The only Benzole Machine that will give a good light.

The entire apparatoals single, occupies but little room, and requires little or no attention except winding up similar to The expense is one third less than ordinary Cral Gas, and unckes the handsqueest and chespest light in the world. It can be seen in practical operation at Henderson & Brogs. Deaderick street. Any person wanting their Houses lighted, can be supplied immediately, they having made a contract for the fur Ishing of Davidsen County, and solicit orders.

THE undersigned have purchased the Patent right of H. WILLIAMS' DOUBLE ACTING BALL VALVE Force and Lift Pump, For the States of Tennessee, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi and Louisiana. We have tested the Pump in all its recommended uses for ordinary purposes-in wells, and as fire engines; and hesitate not to say that it is superior to any pump now in use. It is simple and plain in its construction; can be taken to pieces or put together by any ordinary man, black or white, in half a minute. There is not a screw or bolt about the pump; there is the least imaginable friction—hence its durability. It is almost impossible for it to get out of fix by usage. When used for a well or cistern it can be converted into a Fire Engine in one minute, and by one man water can be thrown over the tallest housee in the country. It is invaluable as a Fire Engine, and especially in the country or coun-It is equally well adapted to all machinery, Railroad Tanks, &c., and will, when known, superscede all other pumps. It can be used for either hot or cold water. Having fully satisfied ourselves as to the capacity, value and utility of the Pump, we age ready to make sales of the above territory by counties or States, (except the Western
District of this State, which has been sold.) We confidently
recommend the Pump to the citizens of the States mentioned.

The Pumps are cheap, and therefore within the reach of

S prizes " 50 are 1,657... Tickets, \$4-Haires, \$9-Quarters \$1. PLAN OF THE LOTTERY. Same as the Boyal Lottery of Cuba-with this differences the Havana Lottery has \$5,000 Numbers—this has only There are two wheels, on each of which there are placed two Locks. The Superintendents have each a key to the Locks, an the wheels cannot be opened unless both are present. There are placed in the wheel of numbers the pubes or nataling sips of paper with the numbers from So. 1 to 15 800. In the wheel of prizes there are placed tin

tubes containing slips of paper with the primes on them ranging foots \$15,000 to \$100.

When the drawing takes place, which will be in public, the wheels are unlocated, and after revolving them, a number is drawn out of the wheel of numbers, and at the same finished tore out.

Having engaged first-class workmen, and obtained a large amount of the best of stock, I am prepared to do work which will compare with any in the whole country, either for style or durability. All kinds of valuties kept constantly on hand, or promptly made to order.

Everetts Puters Countless. all the prizes are drawn at the same time, and so on until all the prizes are drawn out. A copy of the drawing is then sent to the printers, and after comparison the Superinten-dents-certify to the normectaries of the drawing. These Su-perintendents are awarn to perform their duty without lear or layer.

It will be perceived that in this plan every prize is drawn out, and of source some person mass get them; a drawn out, and of source tone porson mast get them; a drawing is sent to every one ordering tickets. The prince are payable thirty days after drawing, in full, without discount. 23° Drawing takes piece every Saturday.

23° Orders for lickets addressed to the M. WINTER Box 100, Nashville, Tenn. will be promptly attended to JAMES F. WINTER, Manager, feb., 22-1w.

Macon, Ga.

APPLES-GREENAPPLES. 20 BRLS of the above in store and for sale by J. G. ROBERTSON. COMMEALS of every earlity, just received by Pf. GWS -Hall & Speer's Pitteburg Flows on hand and for eals by self? D. D. DICKEY.

The Numbers from 1 to 8,000, corresponding with those Numbers on the Tickets printed on separate slips of paper, are encircled with small tin tubes and placed in one Wheel The first 212 Prices, similarly printed and encircled, are placed in another Wheel.

The wheels are then revolved, and a number is drawn from the Wheel of Numbers, and at the same time a prize is drawn from the other wheel. The Number and Prize drawn out are opened and equibited to the audience, and registered by the Commissioners, the Prize being placed against the Number drawn. This operation is repeated until all the prizes are drawn out. APPROXIMATION PRIZES. The two preceding and two succeeding Numbers to those drawing the first 12 Prises will be entitled to the 48 Approxrizes, according to the scheme. entitled to \$20, and so on to 0.

3,000 Prizes of \$20 will be determined by the last figure of the Number that draws the \$50,000 Prize. For example, if the Number drawing the \$50,000 Prize ends with No. 1, then all the Tickets where the number ends in I will be entitled to \$20. If the Number ends with No. 1 then all the Tickets where the Number ends with 2 will be Certificates of Packages will be sold at the following rate which is the risk: Certificate of Package of 10 Whole Tickets \$8 10 Half " 10 Quarter" IN ORDERING TICKETS Enclose the money to our address for the tickets ordered,
